For Attention: Mr T Spies

Dear Theo

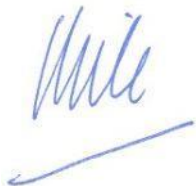

Thank you very much for your follow up call this morning.

I just want to confirm that I am after you & your team's intervention, very happy with the product and the service I have received since my initial concern being raised. It is very rare to receive such positive reaction to a concern being raised.

I have the product installed in both my personal car as well as my golf cart and so far, it has performed very well meeting my expectations.

Thanks once again and may you and your business grow substantially.

Kind regards

A handwritten signature in blue ink, appearing to read 'Mike', with a long horizontal stroke underneath.
